

DCS MAILROOM *plus*

Software That Maximizes Your Document Management Process

HASLER
America's better choice.®

DCS MAILROOM *plus*

ENHANCE MAIL PREPARATION

As an integral part of Hasler's IDM family of document management solutions, DCS Mailroom Plus is an easy to use modular software package designed to bring your document output management process and document handling systems to the next level of automation and savings while maximizing the effectiveness of your business critical communications.

The advanced capabilities of DCS Mailroom Plus allow customers with existing document handling systems to optimize the value of their mailroom equipment by delivering significant postal savings, enhanced security of customer critical business documents, and increased mailroom efficiency.

INTEGRATED DOCUMENT MANAGEMENT (IDM)

Seamlessly combining analysis, hardware, software and service support, IDM is a document management solution that will efficiently create, store, and mail your documents. Through document creation, sorting, folding/inserting and mailing, IDM offers dramatic savings in postage, resources, and labor costs. DCS Mailroom Plus is the entry level software of IDM.

OPTIMIZE ADDRESS

DCS Mailroom Plus integrates with CASS™ and PAVE™ certified list management software, providing address correction and optimization to take advantage of significant postal savings. The result? You qualify for savings up to 25% based upon current USPS® postal discount rates. And, you will reduce your undeliverable mail.

2

GROUP AND SORT DOCUMENTS

GROUP AND SORT DOCUMENTS

DCS Mailroom Plus will optimize mailings

by grouping independent documents destined for the same address into the same envelope. Rather than send multiple mailings to the same recipient, DCS Mailroom Plus allows you to combine them all into a single mailing, reducing the postage and materials cost for that mail piece.

MODULES

Postal Automation

- Interface DCS Mailroom Plus with address management software.
- Increase address quality by verifying and standardizing (CASS™ and PAVE™) address data and reduce undeliverable mail, wasted postage and printed material costs.
- Enhance deliverability and eliminate cost of duplicates by printing barcode addresses.
- Optimize address data with ZIP+4, Delivery Point Validation (DPV™), to qualify for lower postage rates.
- Minimize address correction fees charged by shippers.

Grouping and Sorting

- Group documents by recipient, address or both for insertion into the same envelope.
- Sort document order for greater application flexibility.

OMR

- Easily add OMR marks to preformatted documents.
- Run variable page document sets eliminating manual sorting.
- Sequence checking maintains document set integrity.
- Selectively activate feed stations for inserting “set specific” documents. (i.e. marketing materials, past due notices, etc.)

REQUIREMENTS

PC Hardware

- Pentium 2GHz PC with 512MB RAM or higher
- 10GB free hard disk space
- CD-ROM
- Windows 2000 OS or higher

Software

- Works with any Windows® compatible printer (one printer only)
- Preformatted print data only – choice of Lineprinter, PDF, PCL or Windows formats (select one)

For a demonstration or more information, please contact your local Hasler dealer, or call **800/995-2035**.
