

TECHNOLOGY THAT CREATES
PROFESSIONAL MAILINGS

HJ980

PRODUCTION ADDRESSING SOLUTION COMBINES FLEXIBILITY WITH EXCEPTIONAL PRINT QUALITY

The HJ980 is a full-featured, high volume, large capacity addressing solution that has the ability to take on any challenge with reliable and outstanding results.

The HJ980 features a large 3" print area and three independent print modules which give you the option to print addresses, attention lines, postal barcodes, return addresses and indicia on a mailpiece at the same time. The multi-channel vacuum transport has repositionable outer transport belts and material guides that can be customized to keep pieces in place and ensure perfect registration every time. And, with the inkjet cartridge storage compartment you are able to extend the life of your cartridges and increase their yield, which saves you money.

Processing over 34,000 postcards per hour and 26,000 No. 10 envelopes per hour, the HJ980 is perfect for production-level environments.

HASLER
America's better choice.®

A SUITE OF VALUE-ADDED HASLER PRODUCTS THAT EFFICIENTLY COMPLETE YOUR TOTAL MAILING SOLUTION

Today's competitive market dictates looking for an edge wherever you can find it. Hasler's HJ980 inkjet address printer provides the capabilities to meet all your demands, while delivering production level performance at an economical price. More importantly, the HJ980's in-line design gives you the ability to cut job run-time in half by combining functions.

And to truly maximize productivity and achieve mail center savings, consider integrating other cost-effective Hasler equipment into your mailing operations, including: an in-line tabbing system, mailing systems, folder/inserters and mail center management software. Each of the products and services listed below will add processing speed, enhanced performance and a professional appearance to your mail. Hasler has the total mailing solution to meet all your important processing needs, today and as your mail volume grows in the future.
